

**Afentra (Angola) Limited – Sucursal em Angola
(Block 3/24)**

Public Tender Notice **AAL-B3/24-2026-001- Provision of a DP2 vessel to conduct non-intrusive subsea inspection and preparation activities at existing suspended wells.**

Tender Context

Afentra Angola Ltd invites qualified companies to submit bids for the provision of a DP2 Vessel or elevated lift vessel to support offshore operations in Block 3/24, Angola.

Scope of Work

The scope of work includes:

- Vessel-based sonar survey to confirm wellhead locations;
- ROV visual inspection of mudline wellhead assemblies and surrounding seabed conditions;
- Removal, inspection, cleaning, measurement and reinstallation of temporary abandonment caps using dedicated tooling (to be provided by the company) deployed from and by the vessel, assisted by an ROV or a diver;
- Basic subsea survey and documentation to confirm accessibility and condition of the wells.

The activity will not involve penetration of well barriers or any operation affecting well containment.

Eligibility and Local Content

In accordance with Angolan legislation, specifically **Presidential Decree 271/20 of October 20, 2020, and Instrutivo 6/21 of November 4, 2021**, interested parties must demonstrate:

- Evidence of registration as a supplier in the Oil & Gas sector;
- A certified Local Content plan;
- Proven technical capacity and compliance with Health, Safety, and Environment (HSE) standards; and
- Required licenses.

Technically qualified companies with an interest in the Public Tender are required to send to Angola-Procurement@afentraplc.com the following:

- A cover letter;
- Certification as a supplier in the Oil & Gas Sector by ANPG; and
- Copies of audited financial statements for the past 3 years including balance sheets and income statements.

Deadline for Submission: **17 April 2026**
